Subject: Appreciation for your quick work in the Hatchet Creek repairs on I 94

Dear «president»,

At our recent commission meeting, Montana Department of Transportation staff updated us on the emergency repairs to Interstate 94 at Hatchet Creek following the culvert collapse. They spoke of your contribution in glowing terms and we would like to add our sincere thanks to theirs.

This was an excellent example of how the private sector and a state agency can partner to serve the public. We truly appreciate your quick mobilization and on-the-spot work to restore the interstate to two-way traffic.

Please convey our thanks to all those on your staff that contributed to this effort.

Sincerely,

Bill Kennedy, Chair  
Transportation District 1

Nancy Espy, Vice Chair  
Transportation District 4

Deb Kottel, Commissioner  
Transportation District 2

Kevin Howlett, Commissioner  
Transportation District 1

Rick Griffith, Commissioner  
Transportation District 2
